DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-5 are rejected under 35 U.S.C. 102(b) as being anticipated by Donahey #5,165,501. Donahey, as best seen in Figures 6 and 14, discloses a ladder roof attachment 100, comprised of telescopic U-shaped sections 111, 141, 169, mounted to the ladder rail 16 by means of clamping connections 140-143, each connection passing through sleeve 111.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Southern #5,121,814, and Hastreiter #6,394,229 are cited to teach U-shaped ladder support assemblies.
